ANTI-MONEY LAUNDERING

Money Laundering is the process of converting funds received from illegal activities (such as fraud, corruption, terrorism, etc.) into other funds or investments which look legitimate to hide or distort the real source of the funds.

The process of money laundering can be divided into 3 sequential stages:

(1) Placement

At this stage, funds are converted into financial instruments like checks, bank accounts, money transfers or can be used for purchasing high-value goods that can be resold. They can also be physically deposited into banks and non-bank institutions (e.g., currency exchangers). To avoid suspicion, the launderer may also make a number of deposits instead of depositing the whole sum at once. This form of placement is called smurfing.

(2) Layering

Funds are transferred or moved to other accounts and other financial instruments. It is performed to disguise the origin and disrupt the indication of the entity that made the multiple financial transactions. Moving funds around and changing their form makes it complicated to trace money laundering.

(3) Integration

Funds get back into circulation as legitimate to purchase goods and services.

ANTI-MONEY LAUNDERING POLICY

DefiXFinance, like the majority of companies providing services in financial markets, adheres to principles of Anti-Money Laundering and actively prevents any actions that aim or facilitate the process of legalization of illegally gained funds. AML policy means preventing the use of the company's services by criminals, with the aim of money laundering, terrorism financing, or other criminal activity.

For this purpose, the Company introduced a strict policy on detection, prevention, and warning of the corresponding bodies of any suspicious activities. Moreover, DefiXFinance has no right to notify Clients that the law enforcement bodies are informed about their activity. A complex electronic system for identifying every Company's Client and conducting a detailed history of all operations was also introduced.

To prevent money laundering, DefiXFinance neither accepts nor pays cash under any circumstances. The Company reserves the right to suspend any Client's operation, which can be regarded as illegal or related to money laundering in the opinion of the Company's staff.

COMPANY'S PROCEDURES

DefiXFinance makes sure that it is dealing with a real person or a legal entity. DefiXFinance also performs all the required measures in accordance with applicable laws and regulations issued by the relevant authorities. AML policy is being fulfilled within DefiXFinance by means of the following:

KNOW YOUR CUSTOMER AND DUE DILIGENCE

Due to the Company's commitment to the AML and KYC policies, each Client of the Company has to finish the verification procedure. Before the Company starts any cooperation with the Client, the Company ensures that satisfactory evidence is produced or such other measures are taken as will produce satisfactory evidence of the identity of any customer or counterparty. The Company as well applies heightened scrutiny to Clients, who are residents of the countries identified by credible sources as countries having inadequate AML standards or may represent a high risk for crime and corruption, and to beneficial owners who reside in and whose funds are sourced from named countries.
